

Wootton Upper School

BIOLOGY GCSE

LEARNING JOURNEY

POST-16 PATHWAY

YEAR 10

YEAR 11

YEAR 9

Plant hormonal control

Hormonal control

Reproduction and genetics

Variation and evolution

Non-communicable disease

Nervous system 2

Communicable disease

Respiration

Photosynthesis

Preventing and treating disease

Radioactivity

Nervous system and homeostasis

Stem Cells

Making salts

Digestive system

Particles model and matter 1

Forces and interactions

Atomic structure

Plant organ systems

Adaptation, interdependence, competition

Chemical Analysis

Circulatory system

The Periodic Table

Current, resistance and potential difference

Chemical Calculations 1

Biodiversity in balance

Cell Structure and transport

Wootton Academy Trust
